

The South Florida Palm Society (SFPS)

THE PALM REPORT

Fall Palm Show & Sale 2025

Painting by Linda Apriletti, A Day on the Waccassassa River. She will be offering her beautiful paintings for sale at our Annual 2025 Fall Palm Show and Sale.

Welcome to the South Florida Palm Society Annual Fall Show and Sale.

We have something for everyone! Our growers offer a wide selection of palms and cycads with 430 species to choose from, ranging from common, to hard-to-find and next to impossible to find, for the real plant collectors.

Take advantage of the wisdom from growers, as they can share their insights in selecting the right plant for your garden/collection. Lessons I've learned the hard way, is to step up palms into larger pots and be in no rush to plant out your new plant.

This year, we are really fortunate to have local artist, Linda Apriletti, share with us her beautiful paintings. Linda has shown her artwork in solo exhibitions, including at Everglades National Park, Big Cypress National Park, Museum of the Everglades, and Biscayne Nature Center, and many group settings. She paints by going on location to immerse herself in the beauty that surrounds her.

And we have palm tours scheduled for both Saturday and Sunday, conducted by SFPS members. There will be morning tours, at 11:00 am and afternoon tours at 2:00 pm.

We are planning to have our spring sale at the University of Miami on March 7 and 8. Also, we will be working closely with UM to expand their Palmetum with more palms donated by our members.

We are committed to raising awareness of palms in the landscape, public places and in their natural habitat. We need your support. Please join SFPS. We are looking ahead to 2026 with exciting presentations at our meetings, our Spring and Fall garden tour, and 2026 Spring Palm Show and Sale at UM. And we'll be back for another Fall sale at Fairchild.

Sincerely,

David Lord

President, South Florida Palm Society

Thanks

We are very grateful to all our members in helping us continue our objective in learning more about palms in the landscape, in public spaces and in their natural habitat.

Thanks also to the generosity of our corporate members:

[Naples Botanical Garden](#)

The garden offers guided walking tours of their various areas of interest. On Fridays, they offer a walking tour of their palm and cycad collection. Best to call the Garden for more information.

From their site: A place to experience everything from rainforests to succulent displays to waterlily-laden pools to flowering trees whose bold colors enliven lush green

backdrops. Naples Botanical Garden conserves the plants and habitats of the tropics, cultivates beauty, offers knowledge, and inspires the protection of nature.

[3D's Wholesale Nursery](#)

Supplying premium wholesale palms and Florida-native shrubs with expert care, reliability, and export-ready excellence.

Botanical Gardens Support

We are also very indebted for the support of Fairchild Tropical Botanic Garden (FTBG). Not only have they hosted our palm sales, they have promoted our sale through their website and email announcements. Special thanks goes to Denise Grant and her staff for helping us to organize our sale. Also, FTBG has provided excellent speakers for our meetings. At our last August meeting, Dr. Brett Jestrow, Director of Collections, discussed the criteria for selection of new tropical plants for Fairchild. Their collection continues to grow, showcasing rare tropical plants throughout the world. He showed us some of the newer acquisitions. In addition, FTBG donates plants for our auctions at our general meetings and holiday parties.

Montgomery Botanical Center (MBC) has really come through for us this year, providing two of our speakers. We kicked off our first meeting of the year with Dr. Joanna Tucker Lima, Living Collections Manager at MBC, as we joined her in the seed collection expedition to the state of Acre, Brazil. Her presentation was captivating as her team drove through the muddy roads and then by boat, to explore the interior of Acre. And we ended on a very high note, with Dr. Patrick Griffith, Executive Director of MBC, as we joined him to a speck of sand in the middle of the Pacific Ocean to search for the world's largest coconut. The Palmyra coconut is huge and alive as Dr. Griffith brought one to our meeting. The collected coconuts are now growing at MBC.

MBC has been helping us in other ways. They donate palms for our meetings, holiday parties and this year, for our SFPS Palm Planting Day at the University of Miami.

So, thanks to our members, FTBG and MBC for helping us continue to grow.

The South Florida Palm Society (SFPS) is a not-for-profit organization whose mission is to disseminate information about and encourage interest in palms. The South Florida Palm Society uses its funds to help support local botanical gardens, individual scientific research expeditions or projects, conservation, planting projects and educational efforts. The horticultural society was reincorporated in 1982, but dates back to 1955.
