

The South Florida Palm Society (SFPS)

## **THE PALM REPORT**

Spring Palm Show & Sale 2024

*Featuring Hundreds of Species of Rare, Native, and Exotic Palms*

Welcome to the Spring Show & Sale of the South Florida Palm Society. The 2024 edition marks a milestone for the club, our first sale at the University of Miami. From 9:00 am to 5:00 pm both days, you'll be able to choose from over 300 species of palm and cycad species offered by our members. They're not just vendors; they're experienced, knowledgeable growers, and they'll be happy to answer your questions about achieving optimum results with their plants.

But this is more than a sale. The University of Miami is blessed with excellent tropical landscaping, and we're pleased to offer tours of both the Gifford Arboretum and the Palmetum during the course of the weekend. Please see the tour schedule on the next page. And, of course, you're welcome to stroll the campus at your leisure.

Special thanks are in order to Julio Alvarez for chairing the event, David Lord for compiling and publishing The Palm Report, and Steve Pearson for making arrangements with the university to open its beautiful campus to us.

Sincerely,

Lenny Goldstein

President, South Florida Palm Society

Please Note: This program, while located at the University of Miami, is neither the responsibility of, nor endorsed by the University of Miami.

## **Tour Schedule:**

### **Saturday, April 27, 2024:**

10:00 am, Lenny Goldstein will guide visitors through the palms of the Gifford Arboretum.

2:00 pm, Dr. John Cozza will lead a tour of the entire Arboretum.

### **Sunday, April 28, 2024**

10:00 am, Lenny Goldstein will guide visitors through the palms of the Gifford Arboretum.

2:00 pm, Horace Hobbs will take guests through the Palmetum in the interior of the campus.

The South Florida Palm Society (SFPS) is a not-for-profit organization whose mission is to disseminate information about and encourage interest in palms. The South Florida Palm Society uses its funds to help support local botanical gardens, individual scientific research expeditions or projects, conservation, planting projects and educational efforts. The horticultural society was reincorporated in 1982, but dates back to 1955.

Join our society to support these projects. Submit payment or renew memberships online.
